

## Webinar Series : No.5

# Webinar on “How to use ClinicalKey” and “How to simplify reference management using Mendeley”

**C**linicalKey is a clinical search engine that helps doctors and other health professionals to make better decisions in clinical scenario. ClinicalKey is a source for trusted content covering every medical and surgical speciality and users of ClinicalKey are given full-text access. Remote access is a special feature which lets you access your ClinicalKey account from outside of the PGIM network.

**M**endeley is a free reference manager that can help you collect references, organize your citations, and create bibliographies.
