

Webinar Series: No.2

“How to find latest clinical evidence” on ClinicalKey and “How to simplify reference management using Mendeley” –

Internal Medicine, Emergency Medicine, Family Medicine, Community Medicine and Community Dentistry

- ClinicalKey is a clinical search engine that helps doctors and other health professionals to make better decisions in clinical scenario. ClinicalKey is a source for trusted content covering every medical and surgical speciality and users of ClinicalKey are given full-text access. Remote access is a special feature which lets you access your ClinicalKey account from outside of the PGIM network.
- Mendeley is a free reference manager that can help you collect references, organize your citations, and create bibliographies.

You are invited to a Zoom Webinar;

When : Saturday, December 12, 2020, 2.30 PM India

Topic : ClinicalKey for Better Evidence Series 2
